

Day Paddle

DAY PADDLE

Personalise Your Adventure.

If you are looking for another way to nurture your inner adventurer, our day paddle excursion might be the perfect fit!

As part of a small, expertly guided group, you will paddle between icebergs of all shapes and sizes, skim past penguin rookeries or drift quietly as you absorb the majestic scenery.

Encounter seals hauled out on ice floes, or curious whales surfacing to get a closer look at you!

Our expertly guided, one-time, Paddle Program gives you the rare chance to see Antarctica from the same perspective as most of the wildlife – at the surface of the sea.

Is the Day Paddle Program for you?

Our day paddle excursions are a great way to feel at one with the sea while enjoying some spectacular glacial scenery and perhaps watching penguins swim directly underneath your kayak.

Our stable, inflatable crafts offer you an intimate experience and are ideal to see Antarctica from a different perspective. They are easy to navigate and don't require any previous experience.

If you want to add some variety to your expedition and have little or no paddle experience, then our day paddle excursion is the perfect addition to your Antarctic voyage.

What to expect

Our day paddle excursions last approximately two hours and are offered to our guests once per voyage.

Our experienced guide will lead the small group, consisting of 10 paddlers, one guide and one safety Zodiac driver, safely throughout the paddle excursion while exploring the breathtaking landscapes and wildlife.

Safety precautions

You will be guided by a minimum of one experienced cold-water guide and one safety Zodiac driver.

The wind, weather and water conditions will determine the timing and location of the paddle excursion.

For your safety, you will need to verify that your travel and medical insurance covers kayaking and all participants will be required to join a briefing and sign a waiver prior to disembarking for the excursion.

The minimum age for participants is 16 years and you must be an efficient swimmer.

Clothing and equipment

On the Ocean Endeavour, we will provide you with instructions and equipment, including dry suits, neoprene booties, waterproof gloves, and PFD (personal flotation device).

You will be guided as to what to wear under your drysuit before your first excursion.

KAYAKING vs. DAY PADDLE

Is kayaking experience necessary?

Don't worry, you don't need to be able to do an Eskimo roll to kayak in Antarctica, but you must be able to demonstrate that you are comfortable in a sea kayak.

Basic paddling skills, the ability to get in and out of the cockpit yourself, using a rudder and performing basic paddling strokes in coordination with your paddle partner are necessary for safety and to get the most out of your time with us on the water!

How physically fit do I need to be?

You must be physically fit, have previous kayaking experience and possess a good sense of balance. Kayaking can be quite demanding on your core and arm muscles.

How often will I kayak?

Depending on the expedition, we generally aim to paddle twice per day on expedition days, with excursions approximately 2-4 hours in duration.

Kayaking excursions are determined by weather and water conditions, with the safety of the Kayaking Program participants our primary concern.

What size is the group?

The Expedition Kayak Guide-to- Kayak Program participant ratio will always be at least 1:10.

You will always have one or two experienced Expedition Kayak Guides with you on the water, depending on the group size. A safety Expedition Zodiac driver accompany the group at all times.

Is paddle experience necessary?

If you have little or no paddling experience but have an adventurous spirit and would like to add some variety to your expedition, our day paddle excursion is perfect for you!

No experience is required to manoeuvre our very stable, inflatable sit-on-top kayaks, allowing you to enjoy an unforgettable experience on the water, taking in the breathtaking surroundings of Antarctica!

How physically fit do I need to be?

You must be fit enough to enter and exit the kayak from the Zodiac and to manoeuvre with your paddle.

How often will I paddle?

Our day paddle excursions are a one-time experience and we will aim to take you out on the water for a 1-2 hours of paddling.

Wind, weather and water conditions determine the timing and location of our paddling excursions.

What size is the group?

The Expedition Paddle Guide-to-Day Paddle participant ratio will always be at least 1:10. A safety Expedition Zodiac driver accompany the group at all times.
